## CONDITIONS OF SALE

### COMMISSION

1. A buyer's commission of 10% of the hammer (selling) price will be added, and becomes part of the total purchase price to be paid by the buyer.

### BIDDING

2. All Bids are per lot, as numbered herein. We reserve the right to withdraw any lot prior to the sale, to divide a lot or to group two or more lots.
3. The highest bidder shall prevail. It is the sole right of the Auctioneer to settle any dispute between bidders, to offer for resale any lot under question and to regulate the bidding. The auctioneer also reserves the right to refuse any bid he believes not to have been made in good faith.
4. Persons unable to attend the sale may bid via the enclosed bid sheet or by telephone by using our WATS 800-221-7276. New York State residents may call 212-751-1900. We will be pleased to assist you in bidding, answer any questions regarding a lot, or give you more information on any lot(s).
5. May we suggest bids that make sense. Offering \$100 for a \$1000 coin only wastes your time and ours. While it occasionally happens that a bargain can be obtained at auction, most coins will sell for a price fairly close to their actual value. Please keep this in mind when bidding by mail. And, regardless of "lucky numbers" we would appreciate it if bids are not offered in odd amounts. Such bids will be automatically reduced to the lowest whole number. (\$102.34 becomes \$100.00).
6. HRN as cataloguer and auctioneer reserves the right to offer at this sale its own material and also may bid on any lot for its own account. Consignors also have the right to bid on their own material.

### PAYMENT

7. Payment shall be in U.S. Funds. All bidders, floor or via mail or telephone shall pay for their lots in advance of delivery unless prior arrangements have been made. Successful mail bidders shall be notified of lots won and must remit prior to lots being shipped. A charge for postage, insurance and handling shall be added, as well as appropriate New York State Sales Tax where applicable. Exemption Certificates must be on file with us prior to the sale. Receipt from a reputable carrier shall constitute delivery by us.
8. Title shall not pass until payment in full for won lots has been received. A late charge of 1½% per month shall be imposed on overdue payments.
9. Placing of a bid shall constitute an agreement between buyer and seller and acceptance of the foregoing terms.

### GUARANTEES

10. All items offered in this catalogue are guaranteed as to date, mintmark, metal, specialized catalogue number (such as Sheldon) attribution and of course, authenticity. Lots on which description is incorrect according to the above, are returnable with advance permission from HRN. Disputed lots must be returned intact in their original containers, within 10 days of receipt. Lots are not returnable for any reason (other than a question of authenticity) if:
  - a) You are a floor bidder, even if you did not view the lot.
  - b) You viewed the lot prior to the sale.
  - c) The lot contains more than one coin.
  - d) A photograph of the lot in question appears in the catalogue and clearly shows any defect not noted in description.
  - e) You cannot afford the lot. Bids placed in an auction are legally binding. Please check your finances prior to bidding.
  - f) You simply do not like the coin even though the description is correct. An auction sale is NOT an approval sale and is NOT conditional.
  - g) More than thirty days has elapsed since the day of the sale.

### DESCRIPTION

11. The grading of any coin is a matter of interpretation of the features of that coin as seen by the grader. Grading is NOT an exact science but an art. It is a blending of what the grader sees added to his knowledge of coins in general and of the specific characteristics of the coin in question, plus his experience and awareness of current grading practices as well as market conditions.

The grades represented herein are a reflection of our experience and expertise in the art (not science) of grading and our awareness of the numismatic field at this particular time. They reveal our best opinion of the state of preservation of the item, and are in accordance with most presently used guides on grading as we interpret them. No warranty, expressed or implied, is extended to such opinions and interpretations.

Finally, please be aware of the price paid for a coin. In many cases a lot may not meet your expectations, but you have purchased it for a substantially reduced price. Please keep this in mind when deciding if a lot is satisfactory.
